

Products	Description	Application
K-White 84	Modified aluminium triphosphate	Non-toxic, highly effective corrosion protection in water-based and solvent-based wet paints as well as powder paints
K-White 105	Modified aluminium triphosphate	
K-White 84-S	Modified aluminium triphosphate	Used in basic systems
K-White 140 W	Modified aluminium triphosphate	Used in water-based systems, tannin blocker
K-White Ca 650	Modified aluminium triphosphate	Zinc-free corrosion protection for water-based paints
K-White ZF 150 W	Modified aluminium triphosphate	Zinc-free corrosion protection for water-based paints
K-White ZF 740 W	Modified aluminium triphosphate	Zinc-free corrosion protection for water-based paints
K-White G 105	Modified aluminium triphosphate	Coil coating, improved adhesion to aluminium and zinc
K-White G 110	Modified aluminium triphosphate	Coil coating, Al-Zn alloy steel
K-White G 730	Modified aluminium triphosphate	Coil coating, hot-galvanized steel
K-White G 750	Modified aluminium triphosphate	Coil coating, Al-Zn alloy steel
K-White TC 720	Silicon-magnesium complex	Coil coating
